This Block Diagram is of a typical repeater.

This is of a simplified station, there are many options that may be added.

Drawn by N8FMD

2-2-2017

Receive

Repeater audio and control data applied to controller is used by the controller to apply audio and PTT signals to both the Repeater and the Link Transceiver with the Link sending its signal to the Hub Repeater

Control cable

Transmit

Link Transceiver receives a signal from the Hub Repeater, sends audio and control data to the controller along with PTT information for the Repeater

**Transceiver**

Feedline

Antenna to Hub Repeater
